Re: Rankin County, Mississippi

Dear Congressman Guest:

The Rankin County Board of Supervisors ("Board") supports the Rankin County Watershed Protection & Restoration Program, which identifies multiple project sites among several watersheds within the county. Funding assistance currently being requested will be directed to the Mill Creek watershed project. The Board has previously voted to authorize proceeding forward with this project and continues to support doing so. If there are additional federal funds dedicated to this project through a Member Directed Project Request, then the Board will provide the necessary funding through its capital infrastructure program, obligate the available federal funds, and substantially complete construction of this project within three (3) years of obligation.

Thank you for your assistance with this matter.

Sincerely,

Daniel Cross, President  
Rankin County Board of Supervisors
