Dear Congressman Guest:

Thank you for your consideration of Madison Avenue Widening project for the City of Madison, Mississippi.

Madison Avenue is a key route in Madison the City and a critical connection to the central businesses district and much community activity. The current infrastructure on Madison Avenue consists of a narrow, two-lane road that does not sufficiently address traffic demands. This project would allow for the construction of an additional lane and other associated infrastructure to improve traffic flow, accessibility, and safety for residents and visitors. This project is a great need and would serve our community well.

I appreciate your review and consideration of the Madison Avenue Widening request. Madison the City looks forward to working with you on this effort moving forward. Please let me know if I can be of further assistance.

Thank you,

Mary Hawkins Butler
