REFERENCE: Water Supply Improvement Project
City of McComb, MS

Dear Congressman Guest:

I am writing you to ask for your support of Community Project Funding Request on behalf of the City of McComb for its Water Supply Improvement Project. The City of McComb's water supply is vulnerable due to the fact it has one primary water treatment and distribution location. This request will allow an additional distribution location. There have been incidents where issues arise at the current location and thus the entire city was without drinking water. This project will allow for an emergency redundancy as well as additional drinking water needs for daily activity. The city is financially prepared to provide any matching funding of the anticipated funding.

I hope you give this application every consideration as this project is essential to the continuation and improvement of the City of McComb.

Sincerely,

Quordiniah N. Lockley, Mayor
